EDUCATION

University of Texas at Austin

Austin, TX

Bachelor of Science in Computer Science

May 2024

- **Relevant Coursework:** Data Structures, Algorithms, Machine Learning, Operating Systems, Software Engineering, Computer Networks

EXPERIENCE

Lockheed Martin

Fort Worth, TX

Data Engineer Associate

January 2025 – Present

- Working on data engineering initiatives to support mission-critical defense systems.
- Developing and maintaining data pipelines and infrastructure.

Autonomous Robotics Laboratory

Austin, TX

Research Fellow

December 2023 – Present

- Collaborated in a team of 4 to develop a multi-robot human guidance system using ROS, Python, and C++.
- Integrated GPT-4o to enable robots to guide people throughout the laboratory building with real-time location tracking.

Medex Surgical

Fort Worth, TX

Software Engineering Intern

May 2024 – August 2024

- Designed and deployed an inventory management database system, reducing manual errors by 30% and saving 15 hours weekly.
- Streamlined management of over 1.5K hospital items, improving tracking accuracy across 100+ hospitals by 40%.

iCode

Southlake, TX

Software Engineering Tutor

May 2024 – August 2024

- Instructed lessons in Java, Python, and C++ to 20+ students with hands-on projects.
- Maintained a 90% satisfaction rate by customizing lessons to meet individual needs.

PROJECTS

Video Game Sales Prediction | *Python, Jupyter, scikit-learn, Pandas, NumPy*

December 2024

- Machine learning model predicting game global sales, achieving 83% R2 improvement through feature engineering and hyperparameter tuning.

Web Page Summarizer | *JavaScript, HTML, CSS, OpenAI API*

August 2024

- Chrome extension leveraging OpenAI's GPT-3.5 Turbo to generate concise web page summaries with intelligent content extraction.

Pantry Management System | *Next.js, Firebase, JavaScript, LLaMA*

August 2024

- Full-stack application with real-time inventory tracking and LLaMA AI-powered recipe suggestions for personalized meal planning.

TECHNICAL SKILLS

Languages: Java, Python, C++, C, JavaScript, TypeScript, Ruby, Swift, SQL

Frameworks & Libraries: React, Next.js, Node.js, Spring Boot, TensorFlow, Langchain, scikit-learn

Tools & Platforms: AWS, GCP, Azure, Docker, Git, Bash, ROS, Jupyter

Databases: PostgreSQL, MongoDB, Firebase, MySQL, SQL Server
